*Signs when you want them!*

-  Bleed Line
-  Trim Line
-  Safe Area "Internal Bleed Line"
-  Crop Marks

Please do not leave any guide lines on artwork **except crop marks** when submitting final design.

**Bleed Line** - Artwork background needs to extend to the 'bleed line' to avoid any cutting errors. See Artwork Setup Requirements for bleed size required for your sign.

**Trim Line** - This is the finished size of your sign/artwork.

**Safe Area** - Please keep any text within a few millimetres of the trim line, to avoid being cut off. This is called the Safe Area.

**Crop Marks** - As the guide lines do not remain on your final artwork, crop marks show us where to cut your sign.

IF IN DOUBT, PLEASE ASK
